

**Reduce overhead. Increase productivity.  
Upgrade to an HP LaserJet printer.**

How do you meet the growing demands of your workgroup without blowing your budget? Start with an upgrade. Even if your older printer still works, new HP printers can deliver faster speeds, better resolution and improved durability. They support more users and often offer more functionality—thus cutting equipment needs and saving space. All so you can maximize uptime without taxing IT resources.

To find out how your current printer stacks up, contact us. Then trade up and experience the difference.

Upgrade and you can expect:

HP LaserJet 4250n

- Up to 45 ppm (black)
- Network-ready for up to 10 users
- Robust paper-handling options available

HP Color LaserJet 4700n

- Up to 31 ppm (color and black)
- Network-ready for up to 15 users
- Ships with up to 6,000 more pages worth of CMY and K toner than competitive models

HP LaserJet M5035 mfp

- Prints/copies up to 35 ppm; also scans and sends to e-mail
- Accommodates 11" x 17" paper
- Network-ready; optional fax and variety of paper-handling accessories available
